QUALIFICATIONS

Experienced SAP FI/CO Functional Consultant with over 17 years of experience working in leading companies across diverse industries. Strong expertise in system deployment, implementation, customization, migration, and support within SAP Financials (ECC6, EHP8 SP18, and S/4HANA 1709, 1809, 2022), including integration with other SAP modules such as SD, MM, PS, CO, and PI.

Skilled in collaborating with clients to understand business requirements and deliver effective financial process solutions. Proven experience in business process flow design, functional specifications, full-cycle SAP projects, product testing, unit and integrated testing, and post-deployment user support.

Hands-on experience supporting all SAP Activate phases to ensure successful S/4HANA implementation projects. Strong background in FI sub-modules including FI-AP, FI-AR, FI-GL, New GL, FI-AA, and FI-FSCM, with practical knowledge of FIORI applications. Expertise in organizational structure setup, document control, master data (customers, vendors), chart of accounts, banking configuration, posting controls, reconciliations, credit management, accounts payable/receivable, and fixed assets (valuation and depreciation).

Project experience across multiple industries, including Mining, Aluminum, Logistics, Chemical, Petrochemical, Electronics, Retail, Sugar & Ethanol, Automotive, Pharmaceutical, Steel, Cement, Pulp & Paper, Hydroelectric, Auditing, Textile, and Telecommunications sectors.

PROFESSIONAL EXPERIENCE

Role: SAP FI/CO Functional Consultant

Company: Votorantim S.A.

Period: January 2019 – Present.

- Served as an SAP FI Functional Consultant, acting as a key liaison between business stakeholders and application development teams.
- Designed and configured SAP FI/CO solutions that effectively translated business requirements into technical specifications.
- Planned and managed business requirements, performing detailed analysis and validation for new and existing financial processes, policies, and systems.
- Identified business problems and improvement opportunities, recommending solutions to achieve organizational goals within scope, budget, and timeline.
- Executed over 50 company rollouts and implemented 150+ enhancements in SAP FI/CO modules to optimize and automate financial processes.
- Acted as the FI consultant supporting the global SAP S/4HANA implementation at Votorantim.
- Developed and maintained Business Process Documentation (BPD), functional and technical specifications, parameter settings, and customizations within SAP FI.
- Conducted analysis and documentation of SAP FI business process flows and system developments.
- Created and maintained user template documents to support project implementation and standardization.
- Participated in configuration activities and unit testing of SAP FI modules.
- Supported key users during Integration Testing and User Acceptance Testing (UAT) phases.
- Implemented SOX compliance automations to strengthen financial process controls and approval workflows.
- Provided ongoing project and production support, offering functional leadership across SAP FI-related areas.

Company: HC & Fundação FAEPA (Hospital / Healthcare Sector)

Period: April 2018 – January 2019

- Led the SAP S/4HANA 1809 implementation, developing the back-office architecture using the SAP Activate methodology.
- Managed the SAP FI finance team, applying best practices across FI-AP, FI-AR, FI-AA, FI-GL, FI-TR, FI-BL, and FIORI applications.
- Oversaw data migration and data archiving activities to ensure integrity and compliance.
- Conducted system performance testing, coordinated project teams, and delivered key user training sessions to ensure successful adoption.

Company: Neoris Brasil (Consulting)

Period: January 2018 – March 2018

- Provided SAP functional and operational support to multiple clients, including Elektro, Neoenergia, Alphaplast, and Albert Einstein Hospital.

- Supported SAP environments in EHP7, EHP8, and S/4HANA, ensuring issue resolution and implementation of best practices in FI-AP, FI-AR, FI-AA, FI-GL, FI-TR, Banking, and SPED Tax Obligations.
- Collaborated with client teams to stabilize financial processes, optimize configurations, and improve system performance.

Company: Vale S.A. (Mining, Metals, Nickel, Copper)

Period: February 2017 – January 2018

- Executed over 50 enhancements in SAP FI/CO modules to improve and automate financial processes.
- Provided support to finance operations in ECC 6.0 and EHP7 environments.
- Resolved complex issues across multiple financial areas, including FI-AP, FI-AR, FI-AA, FI-GL, FI-TR, banking, and tax integrations with federal and state government systems and legacy platforms.
- Responsible for the separation of the chemical and fertilizer segment companies, including The Mosaic Company, as well as for providing support and monitoring during Yara's assisted operation.

Company: Croda (Chemical Industry)

Period: July 2016 – December 2016

- Implemented SPED Reinf and SPED Fiscal Block K in compliance with Brazilian tax requirements.
- Analyzed and configured invoice inputs and withholding processes, contributing to the development of the EFD-Reinf program.

Company: Engineering Group (Consulting)

Period: October 2014 – October 2015

Client: Lonza (Chemical Industry)

- Supported SAP implementation during integrated testing of Accounts Payable and Accounts Receivable.
- Adjusted and corrected test programs, prepared and executed detailed test plans for developed solutions.

Client: Piracanjuba (Dairy Industry)

- Participated in SAP ECC6 Realize Phase, implementing adjustments and corrections in AP, AR, and Payroll modules.
- Conducted unit testing for banking processes and integrated testing across modules.
- Prepared the cutover plan for SAP FI/CO go-live.
- Client: Chord Energy Corp (formerly OAS)
- Supported SAP implementation for a new business unit, including payment configuration for AR.
- Performed environment setup and system adjustments to enable Business Partner functionality.

Company: Volkswagen (Automotive)

Period: April 2014 – July 2014

- Managed user profile mapping, segregation of duties, and system configuration for integrated testing.
- Prepared technical documentation and delivered end-user training and support.

Company: Firsteam (Consulting)

Period: April 2012 – February 2014

Client: Volkswagen (Automotive)

- Deployed Accounts Receivable functionalities in SAP FI/CO.

Client: Volkswagen (Automotive)

- Deployed Accounts Receivable functionalities in SAP FI/CO.
- Executed improvement packages, performed unit and integrated testing, and delivered post-deployment user support.

Client: Saint-Gobain Group (Manufacturing)

- Implemented Banco Santander integration: created company bank profiles, installed payment programs, and defined banking operation.
- Improved Accounts Payable and Receivable processes by creating new payment conditions and testing automated bank file transmissions.
- Managed Tax SPED Accounting 2012 and SPED FCont 2012 implementations.

Client: Merck Group (Pharmaceutical)

- Implemented complex ICMS Tax Adjustments according to "ICMS Agreement 123/12".
- Created new INSS payroll release rules via pricing in SD and MM.
- Managed postings and accounting closings and analyzed CO account results.

Company: PwC – PricewaterhouseCoopers (Audit & Consulting)

Period: September 2011 – March 2012

Client: Bank Bradesco Group

- Analyzed accounting accounts in SAP and supervised ECD and FCONT data analysis.
- Validated PVA files for all PwC outsourcing clients.
- Prepared SAP environments for outsourcing support and developed process flow documentation, functional specifications, and unit/integration testing materials.

Company: Indra Company (Consulting)

Period: August 2010 – September 2011

Clients: Telecom Companies (Vivo, Telefónica, Claro)

- Provided help desk support for SAP FI evolutionary demands and system improvement projects.

Company: Grupo Assa (Consulting)

Period: May 2008 – August 2010

Client: GBarbosa (Retail / Wholesale)

- Supported SAP Retail branch deployment in Brazil.
