SAP MM/EWM SPECIALIST

QUALIFICATIONS SUMMARY

IT professional with 13 years of experience in the SAP ecosystem across prominent companies in the industrial, chemical, agricultural, and food industry sectors.

Experience in project implementation, rollout, solution architecture, and execution of projects involving P2P (Purchase to Pay), Logistics Inbound/Outbound, EWM, and Master Data (customer, material, supplier) processes in SAP ECC and S4/HANA environments in global contexts.

Expertise in Brazilian localization, covering the full tax scenario for acquisitions, interplant transfers, subcontracting, consignment, and other special processes.

Proficient in SAP architecture, capable of proposing and designing both standard and customized solutions, including integrations with legacy systems through IDOC, API, web services, RFC (inbound and outbound), and standalone solutions, leveraging various middleware platforms like PI/PO, CPI/BTP, SCP, Mulesoft, and Digibee.

Skilled in ABAP programming for minor developments, corrections, and debugging.

EDUCATION

Technology in Systems Analysis and Development, 2013.

PROFESSIONAL EXPERIENCE

Citrosuco 01/2024 – 03/2025

SAP MM/EWM Specialist

- Key contact for projects and improvements in Procurement to Pay (P2P) processes.
- Responsible for the design and approval of system and process solutions related to procurement, supply, and master data across all geographies.
- Solution architecture design for process improvements, system implementations, and

legacy system integrations using APIs, RFC, IDOC, SAP BTP, PI/PO, sFTP, and other communication methods.

- Preparation of technical and functional specifications and other project documentation.
- Daily project management with internal teams and vendors.
- Customization and configuration of SAP MM/eWM and SD modules, including Brazilian localization and tax compliance.
- Full project lifecycle responsibility, from solution design to development, unit and integrated testing, and rollout.

Key Projects:

- SAP rollout for Japan and China (remote)
- Coupa implementation (replacing ARIBA)
- Product master data management system for Klasmatt integrated with SAP
- SAP upgrade to version 2023 and migration to RISE

Bauducco 02/2022 – 01/2024
