SUMMARY

I am an IT professional with 25 years of experience.

I have worked in several large IT tech companies, in areas such as delivery, product and software development, sales, and for the last 12 years in pre-sales of cloud solutions. Each experience has taught me to balance strategies, design solutions that generate business value, and deliver real results for client and company growth.

I have experience in migrating data centers to the cloud, modernizing applications to resilient architectures, cloud-to-cloud migrations, designing resilient and high-availability architectures, converting legacy applications to microservices or event-driven architectures, designing data architecture and AI solutions, as well as infrastructure capacity planning and FinOps in the cloud.

My practical experience encompasses understanding the business and technical elements of a solution, designing modern architectures to meet client requirements, and providing technical leadership in the development and implementation of diverse solutions involving major public cloud providers: AWS, Azure, Google Cloud, Oracle OCI, IBM Cloud, and Huawei Cloud.

EXPERIENCE

SIAM Tecnologia

Remote, Brazil

Principal Solutions Architect

10/2025

- Function as a Principal SA across multi-cloud environments (AWS, Azure, OCI, GCP), leveraging a hands-on approach to lead and execute complex outsourcing projects.
- Proven expertise in Pre-Sales and Sales Architect roles, translating complex technical requirements into compelling business solutions and fostering strong C-level relationships.

Huawei Cloud

100% Office, Brazil,
São Paulo region

Principal Solution Architect for Pre-sales

08/2023 - 02/2025

- **Strategic Leadership & Business Development:** Managed key corporate accounts (Huawei Cloud), fostering C-level relationships to identify new business opportunities and guide partners in their cloud strategies. Acted as a Cloud Advocate, leading market knowledge transfer through presentations, POCs, and training sessions. Successfully sold the largest migration project of SAP Hana and ECC from Huawei in 2024, worth US\$ 7.5 million, with a 5-year contract.
- **Complex Solution Design:** Specializes in designing advanced cloud solutions, including High-Performance Computing (HPC) for AI/GenAI (GPU-based VMs), Application Modernization (microservices/event-driven), Data & Analytics (Data Warehouses, Data Lakes), and cloud-to-cloud migrations.
- **Migration & Optimization:** Led end-to-end migrations from on-premises data centers to the cloud, utilizing various techniques and accelerators to tailor strategies for each client. Achieved seamless transitions while optimizing performance and scalability. Designed and implemented many cloud migration projects resulting in cost reduction, rearchitected, infrastructure modernization, and increased resilience.
- **Global Collaboration:** Partnered with global product teams to improve solution releases by providing crucial market and competitor insights, which increased solution maturity and customer satisfaction.

IBM Brazil

50% Hybrid, Brazil,
São Paulo region

Sr. Solution Architect for Pre-Sales &
Ecosystem

01/2021 - 08/2023

- **Enterprise Consulting & Strategic Advising:** Supported several enterprise clients providing specialized guidance on IBM Cloud migration and multi-cloud architectures. Advised strategic clients on best practice solutions for building robust, production (Prod) cloud environments as well safe using cloud security best practices.
- **FinOps & Cost Optimization:** Specialized in FinOps, working closely with clients to achieve significant cost reduction through strategic methodologies and automation techniques using Terraform.

MINDSET & BEHAVIOR

Continuous learning mindset, human communication and collaboration, critical thinking for problem-solving, emotional intelligence, resilience, and cultural adaptability.

AWARDS - GLOBAL RECOGNITION

- **Best of IBM 2012 Global Award**

I was recognized as the top best 500 IBM employees in the World.

- **The Art of Innovating Award**

MAIN CERTIFICATES

AWS Certified Solutions Architect – Associate

AWS Certified Cloud Practitioner

Oracle Cloud Infrastructure 2025 Certified Multicloud Architect Professional

Oracle Cloud Infrastructure 2025 Certified Architect Associate

Oracle Data Platform 2025 Certified Foundations Associate

Oracle Cloud Infrastructure 2025 Certified Foundations Associate

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

Oracle Fusion AI Agent Studio Foundations Associate - Rel 1

MySQL Implementation Certified Associate

EXPERIENCE

- **Complex Solution & Hybrid Cloud Design:** Led as a Senior Pre-Sales Architect for hybrid cloud solutions. Expertise includes designing highly specialized Data Center and High-Performance Computing (HPC) solutions utilizing GPUs, along with architectures involving VMware, RISC (AIX), Red Hat OpenShift, Veeam, SAP, Analytics, and Oracle environments.
- **Ecosystem Development & Global Collaboration:** Developed and supported strategies for the IBM Cloud ecosystem. Collaborated with global product teams, providing crucial market and competitor insights to enhance solution maturity and drive innovation.

IBM Brazil

50% Hybrid, Brazil, São Paulo region

Client Technical Leader & Architect

07/2020 - 01/2021

- My role was a mix of solutions architect and technical architecture lead for several enterprise clients.
- I guided clients in adopting and using IBM solutions, increasing the market share of IBM products and directly contributing to software and cloud sales results.
- I technically led several projects, implementations, and technology migrations within IBM clients. I highlight the largest outsourcing clients, where I directly impacted their business by increasing productivity, automation, and resilience of critical systems. Clients included: Amex, Ameriprise, Hitachi, Whirlpool, Panasonic, and other global clients.
- I created, developed, and maintained strong relationships with clients, technical teams, and leadership, contributing with my personal and team results to increasing client confidence in the services delivered by IBM, thus generating new business.
- I designed cloud solutions from IBM and non-IBM vendors such as Red Hat, SAP, etc... Solutions as: Big Data/DW, Datacenter, platform and cloud migrations, and others, to meet clients' strategic needs.
- As a solutions architect, I conducted dozens of Proof of Concept (POC) demonstrations and technical software demonstrations at IBM events for clients, as well as designing resilient and high-performance low-cost solutions to address clients' financial challenges.

Infosys Consulting

100% Client Site, Brazil, SP region

Manager/Head IT Services LATAM

10/2019 - 06/2020

- **Global IT transformation leadership:** Led Siemens Gamesa's IT digital transformation for the Latin America and Mexico regions. Contributed significantly to the design of the client's global IT modernization strategy, including core systems running SAP. Managed global reporting lines to leadership in India and Spain.
- **Strategic management and operations:** Led diverse functional teams including support, service desk, field services, infrastructure, cloud (Azure, O365), SAP, networks, and security. Successfully negotiated and managed complex contracts, resources, and projects within the client organization. As a result, increased customer satisfaction (NPS) by 30% in Brazil and 25% in LATAM.
- **Enterprise consulting and strategic advising:** Acted as an Azure Expert Architect, working collaboratively with global and local teams. Served as a trusted advisor for Siemens, ensuring best practices for design and building a robust global cloud migration approach (Azure) from the client's production environments in LATAM.

MAIN CERTIFICATES

Microsoft Certified Azure Fundamentals

EXPERIENCE

T-Systems do Brasil

50% Hybrid, Brazil,
São Paulo region

Business Development Mgmt & Sales

04/2019 - 10/2019

- **Pre-Sales and Negotiation:** Leadership in IT project negotiations and consultative support to sales teams, focusing on defining scope and service strategies.
- **Solution Architecture:** Expertise in designing and implementing robust solutions for cloud and data center environments, ensuring integration and operational efficiency.
- **Cloud Specialist (AWS/Azure):** Experience as a consultant and specialist architect in Azure, working on collaborative projects with multidisciplinary client teams. Designed data center expansion projects, application migration to Azure and AWS, implementation of production environments, and FINOps analysis. Delivered cost reductions on cloud bills by implementing best practices in governance and automation for many clients.
- **Service and Project Management:** Experience in managing service transitions and leading complex IT projects.

Claro Brasil

100% Office, Brazil,
Sao Paulo region

Sr. Business Development Manager &
Sales Architect

02/2017 - 03/2019

- **Cloud Solution Architecture:** Expertise in designing robust solutions, integrating technologies from partners such as IBM, Genesys Cloud, Cisco, Avaya, VMware, and Fortinet.
- **Strategic Consulting:** Advising clients on defining digital transformation strategies, migrations to public/private clouds, and data center consolidation.
- **Relationship Management and Sales:** Developing and maintaining strong relationships with a portfolio of over 200 clients in the interior of São Paulo state. I delivered a revenue increase in the portfolio of more than 25% annually through new projects or increased service scope. New contracts combined generated R\$1 million in new revenue per year, recurring revenue.
- **Collaboration and Ecosystem:** Strong collaboration with partner pre-sales teams, strengthening the ecosystem and aligning delivery and new sales strategies.
- **Pre-sales Specialist:** Acting as a technical focal point, working together with sales and delivery teams to ensure the success of proposals and projects.

Avanade

50% Hybrid, Brazil,
São Paulo region

Pre-sales & Azure Delivery MGR

10/2014 - 05/2016

- **People Management:** Career coaching, guiding the team toward professional growth.
- **Cloud Architecture (Microsoft Azure):** Acting as a solutions architect, working collaboratively with clients and partners to develop scalable and resilient solutions.
- **Technical Expertise:** Delivering technical presentations on Azure solutions, training clients, and reviewing cloud architectures (architecture coach).
- **Financial Management:** Managing financial aspects of cloud accounts and contracts.

GRADUATIONS

Fundação Getulio Vargas

MBA – Fundação Getulio Vargas

Brazil, Sao Paulo region

01/2008 – 12/2008

- Master of Business Administration in IT with focus in Strategic Business Management

Data Science Academy

Postgraduation in Data Architecture, Analytics

EAD/Hans On, on going 2025

- The able to planning, designing, developing and managing data infrastructure in complex organizations, supporting the analytical and operational needs using technologies such as relational and non-relational databases, data lakes and data warehouses using AWS and Google Data products, Snowflake, Databricks platforms, Spark, ML, ETL/ELT, AI and Data advanced techniques.

EXPERIENCE
