With more than 31 years working and performing with technology, I have not only when throw a university degree or an MBA in a triple (A) institution. I actually had the need to go deeper and deeper in search of knowledge by doing all sorts of specialization in order to be able to act and manage teams with all sorts of skills and talents. Acting over this time in international projects with Europeans, Americas, Spanish teammates/companies managing projects and professionals internationally to deliver and achieve the company goals and main objectives, due such involvement. I had the opportunity to promote experience exchange improving knowledge and professional engagement for everyone involved.

Education

- Computer Science - Universidade Paulista - 1999;
- MBA – Fundação Getúlio Vargas - 2010;

Languages

- English – (Cultura Inglesa) - Certificate exams in Cambridge and Oxford - 1998;
- Spanish – (Brazil International House School) - 2000;

Professional Experience

- **CBI-Consulting – SAP Gold Partner: (Actual)**

Position: Superintendente de TI

Challenges & Achievements: Create a high-quality IT department following SAP requirements and standardize framework for development in ABAP language and implement and enforce security LGPD over IT. Migrate to IFX Cloud all local SAP systems.

- **Bichara Advogados (Lawyer): (June 2020 to July 2021)**

Position: Executive TI Partner - (Direct report to: Partners committee)

Challenges & Achievements: Responsible for the IT and member of the LGPD committee.

I had to act quickly and restructure the remote service and support system in the pandemic phase. Implemented GED systems (iManage Works), and performed integrations and automations with TOTVS ERP system (Sisjuri). Implemented automations standardizing legal documents, jurisprudential research, consultation of ongoing processes of new processes of the active client base. Implemented security tools and productivity monitoring, focusing on LGPD, and measuring the time each lawyer worked for which client on which documents, thus maintaining Adv/hour fee income.

- **KPMG: (March 2014 to June 2020)**

Position: Manager, IT – (Direct report to USA: CIO/CTO, BR: CIO/COO/PRESIDENT)

Challenges & Achievements: Hired in Brazil as a member team of KPMG USA to manage Brazil and Latin Americas TI operations. Also, work on deployment projects as SAP ECC/HANA, Microsoft Dynamics CRM Migration, Process restructure and Automation (RPA with BluePrism) and 6-Sigma projects.

- **ANGEM: (July 2013 to March 2014)**

Position: Sr. Manager, IT – (Direct report to: USA: CIO, EUA: CTO, BR: CFO)

Challenges & Achievements: Hired as a member of USA Team for Brazil, to work on local specific projects like Retrofitting Bergamo's network infrastructure servers and workstations. Deploy SAP Global template, Thomson legal systems and BI system with IBM Cognos.

- **KPMG: (July 2012 to July 2013)**

Position: Manager, IT – (Direct Report to: BR CIO/COO/Board Directors)

Challenges & Achievements: Create a TI area to focus on Business systems, where the company lacks knowledge to gain market share. Push forward Audit, Advisory and TAX to achieve goals/deliverables through technology and process optimization. Deploy new methodology and best practice and make the IT business team efficiently against the company goals.

- **Aliz Participações (Thomson Reuters Partner): (July/2011 to July/2012)**

Position: Manager, IT – (Direct report to: BR COO/CFO)

Challenges & Achievements: hired to manage the IT Infrastructure, Telecom, IT servicedesk team and Data Servers solutions for external teammates. Also, do the frontend delivery to clients supporting implementations (technically and functionally) to guarantee fully success of projects delivery.

- **KORN/FERRY International: (May/2003 to July/2011)**

Position: Manager, IT – (Direct report to: BR: COO/CFO – USA CIO)

Challenges & Achievements: hired at first as a system coordinator for IT, my trajectory granted me three internal promotions along 8 years. Summarizing historical projects and responsibilities: Deploy SAP Global template, Custom CRM systems (developed in-house, Microsoft success case), Network Infrastructure with Microsoft and Apple notebooks, BI system (IBM Cognos), automation systems for video sound lights and corporate presentations and Microsoft SharePoint services. Manage It in Brazil and South America for the company.
