12/2012 – 12/2015

Sysmap Solutions Software and Cons. Ltda - São Paulo - SP

Consultant Architect of SOA-BPM Solutions and Mobile Applications

Assignments: Creation and structure of the active body architecture through BA Oracle project (With the corporate map, the value chains of each area and subsequently its processes, Oracle BPM with ADF and Composer WebForms, at the tactical, managerial and operational level) and BPM processes integrating with systems processes (BPEL), with a basic canonical model (under the MDS) for information exchange and the OSB bus as a means of exposure and consumption of services, in addition to Oracle BAM for creation of RealTime Reports and DashBoards with the PKIS, and defined business parameter. Use of **Oracle Middleware 12c**, for installation, testing, development and POC's, technologies (BA, BAM, BPEL, BPMN, and OSB);

Definition of solution architecture, development of POC'S and support for the development of mobile applications using **those with Apache Cordova, BootStrap, Angular and Microservices JSON dataservices** of the SOA framework for scheduling exams.

Project: **DASA Laboratories do Brasil S/A - Implementation of SOA and BPM for branch expansion and scheduling system and results of Mobile exams - 03/2015 until 12/2015**

Contact

Tel: (11) 97583-8288 - (31) 9861-0199 - well.amaral2007@gmail.com

SOA Solutions Architect Consultant

Assignments: Creation and development of corporate solutions (POC's), strong mastery of OFM/SAP integration models, definition of canonical model based on TOGAF, governance model and management of services in their lifecycles, for integrations with ERP SAP R3/SD (IDOC's receiving information – Modedo Pub-Sub EDN of SOA suite and RFP's for sending / receiving information from SAP ERP), FI with Oracle Middleware tools 11g and 12c technologies (BPMN, SOA, OEG, OER, OSB);

Project: **Embraer Brasil SJK** - Means of payment (Management of executive aviation payments via web with payment gateways (REST Services - Cielo/Authorize USA-EU / use of configuration and security management through digital certification) and accounting management via SAP/FI and Quantum ERP) and eParts (Request of materials via web with information all integrated in SAP/SD- SAP/FI) - 11/2014 until 02/2015;

SOA Solutions Architect Consultant

Assignments: Creation of solutions in enterprise architecture through the TOGAF framework and governance management with poc's development, integrations and training for the main technologies of Oracle Middleware 11g and 12c (BPM, SOA, OER, ODI, OSB, BAM);

Project: **GOL Linhas Aéreas** – Gol Mobile (With end-to-end rest-json integration solution) and Gol DW (Integrations and generation of BAM data extraction report's carried out via ODI) - 07/2014 until 10/2014

Consultor SOA-BPM/Oracle Retail

Assignments: Survey of integration needs with C&A business analysts, understanding of the operation of legacy systems (BASE DB2) and OR (Oracle Retail Management) to create functional specifications, together with business analysts (of each OR module) of the necessary integrations with their approval. Creation of technical specifications (solution design) of integration, development using OSB, BPM 11g (design of business processes), WebServices Java, Stored Procedures, RIB (Retail Integrator BUS), unit tests, and deployment in integrated testing environment for validation of business analysts, and homologation with users. Great emphasis on acting with leadership and conflict resolution of functional, technical and stakeholder interests;

Tecnologias: Oracle SOA Suite 11g (OSB 11.1.1.7, BPM 11.1.1.7, WL), OR e DB2;

Project: **Project One - C&A Modas** - 11/2013 to 06/2014

SOA-BPM Solutions Architect Consultant

Contact

Tel: (11) 97583-8288 - (31) 9861-0199 - well.amaral2007@gmail.com

Assignments: Creation of architectures, design solutions and processes, leadership for development teams (analysts, developers, testers); Proofs of concept, development (OSB 11.1.1.6 g - BPM 11..1.1.6 g); Structuring creation and validation of technical specifications of creation, alteration and definition of services, business processes, and canonical model; Standardization and validation of coding in the technologies below; Governance via sensedia system.

Tecnologias: Oracle SOA Suite 11g e 12 c (OSB, BPEL, BPM, BRE, Human Tasks, MDS, ADF, WL), JBoss (7);

SOA architecture solutions based on Oracle SOA Suite 11g and 12 c.

Projects: **BSS/STP Sempapar Integration BSS - CBILL** - 12/2012 until 10/2013;

06/2009 – 11/2012

Squadra Tecnologia Ltda/PMMG - Belo Horizonte – MG

JEE/SOA Solution Architect - Técnico Leader

Assignments: Creation of architectures, leadership for development teams (analysts, developers, testers); Proofs of concept; Structuring and management of production application servers, balancing, SSO, failure recovery;

Tecnologias: Oracle SOA Suite 11g (OSB, BPEL, BPM, BRE, Human Tasks, MDS, ADF, WL), WebSphere Application Server, WebService Security, WebSphere MQ, Message Broker(IIB), WESB, WSRR e IBM BPM, JEE(JSP, Spring, Struts, JSF, EJB 3, JPA, Hibernate3), JBoss (4, 5, 6) em Cluster;

Projects: PMMG software factory with several JEE/SOA Web projects, architect of fifteen projects and team of thirty people.

Structuring soa architecture based on Oracle SOA Suite 11g, and IBM

06/2006 – 06/2009

Stefanini Consulting and Advisory Services in Informatics Ltda - Belo Horizonte - MG

JEE/SOA Software Architect

Responsibilities: Definition of solutions, Development, POCs, Training, Presentations, Scrum Master

1 Part - One year and 4 months - Creation of opensource Middleware for MD based on open-source tools, research project;

2 Part - One year and 8 months - Integration of the armed forces through Middleware created for combined command operations - border patrol;

Tecnologias: BEA Aqualogic - Oracle SOA/BPM Suite 10g, Apache Camel, ServiceMix (ESB), Intalio(BPMN), JUDDI (Registry), ODE (BPEL)
