Belo Horizonte – MG – BRAZIL

CURRICULUM VITAE

Objective:

Placing: CIO / CTO / MANAGER IT SENIOR / DEVELOPMENT MANAGER OF SYSTEMS and SOFTWARE / SENIOR SAP PROJECT MANAGER / IT PROJECT MANAGER / INFRA SENIOR

Training Academic

- Higher Education :
BACHELOR SCIENCE OF COMPUTING
(Federal University of Minas Gerais – UFMG) BELO HORIZON/MG - 02/1984 – 12/1989.
- MBA / Postgraduate: **TECHNOLOGY AND MARKETING DIGITAL**
(Mackenzie Presbyterian University) SAO PAULO/SP - 02/1991 – 12/1992.

Languages:

- Spanish: Basic
- Japanese: Basic
- English: Advanced / Fluent
- Portuguese: Native

Cursors:

Administration of Systems: IBM 4341/4381/3090
Administration of Systems: VM/MVS/CICS/VSAM/VTAM/COBOL
Systems Administration: R6000 pSeries IBM / UNIX
Administration of Systems: Systems UNIX – HP -UX RISK PLATFORM
Systems Administration: Tivoli Storage Manager (Backup and Recovery)
Network Administrator / Router / Managed CISCO Firewall
CRM/ERP / TOTVS /RM SYSTEMS / S ALESFORCE
CRM/ERP/SAP R/3 4.6b- ECC
CRM/ERP/SAP S/4 HANA Cloud /
CCNA - Cisco Certificate Network CCNP
Associate - Cisco Certified Network
CCIE - Cisco Certified Network
MCSA - Microsoft Certified Solutions Associate
MCSE - Microsoft Certified Solutions Expert
MCSA - Microsoft Certified Solutions Developer
Windows Server ,
AdvancerServer2000/2003/2008/2013/2016/2019/2022
Windows 11 Pro/10 Pro/8 Pro/7 Pro/Windows XP Pro
Official 2000/2003/2008/2013/2016/2019/365
ORACLE SERVER, ORACLE CLOUD, PROGRESS
SQL/ SQL Server 2003/2008/2016/2019/2022
ETHICAL HACKER Certification
Certification Google (Analysis and Advertisements)
Certification Agile and Projects: PMP, PMO, PMI, PMI-SP, MS PROJECT, JAVA, JIRA,
SCRUM, PYTHON
Project Management

Experience Professional:

JHSM SOLUTIONS AND TECHNOLOGY

POSITION: DIRECTOR TECHNOLOGY, DEVELOPMENT OF SYSTEMS, SOFTWARE AND IT
PROJECTS – 01/2022 IN ACTIVITY....

(SAP S/4 HANA PROJECT, MIGRATION AND IMPLEMENTATION OF SAP ECC TO S/4 HANA,
AT CIA FAXMAX IN DIVINOPOLIS – MG) SEPTEMBER/2022 TO JUNE/2024, CONTRACTED
BY SEIDOR PROJECT SERVICES DO BRASIL CONSULTORIA LTDA).

COTEMINAS S/A - CNPJ: 07.663.140/ 0019-18

POSITION: CTO / MANAGER TECHNOLOGY, DEVELOPMENT SYSTEMS, SOFTWARE AND
PROJECTS IT - 01/1980 - 12/2021

COMPANY FABRICS SANTANENSE – CNPJ: 21.255.567/0010- 70

POSITION: MANAGER TECHNOLOGY, DEVELOPMENT SYSTEMS, SOFTWARE AND
PROJECTS IT - 12/2004 - 06/2021

Experience and Qualifications:

CIO, Technology Manager, Systems, Software and Project Development Manager, Project Leader, Project Coordinator, Systems Development Coordinator, Infrastructure/Network/Data Coordinator, Systems Analyst, Support Analyst, Network Analyst and Systems Developer.

With knowledge in network infrastructure (Cabling and Asset Management), Firewall, Router, Security Devices and Administration of Corporate Networks / Database: ORACLE, PROGRESS, MS SQL SERVER, MONGO, CRM / ERP SAP ECC / SAP S4 HANA. TOTVS (DATASUL), RM SISTEMAS and SALESFORCE.

28 years of experience in Information Technology with experience in the most varied segments such as Textile Industry, Retail, Manufacturing, Hydroelectric Power Plant, Wind Power, Photovoltaic and Agribusiness and companies of average, big carrying and multinational (USA

, ARGENTINA, PARAGUAY, BRAZIL, CANADA and CHINA). My experience encompasses the management of systems, development, projects, infrastructure, security, intelligence/innovation areas. with implementation of controls internal, reduction of costs and improvement of results. Define and carry out the planning strategic, models to the architecture of information, organization, relationships and information security LGPD.

INFORMATION MANAGEMENT : Agile Methodologies, Processes, Tools, Data, Documentation, Parameterization, Verticalization, Digitalization, includes routines for processing, storage, classification, identification and sharing of records, whether digital or physical.

Responsible for Planning, Development, Solutions and IT/BI/DEVELOPMENT/B2B/B2C Projects, E-COMMERCE, FRONT NET, FRONT END, BACKEND,

CRM/ERP, POWER BI , KANBAN, MS PROJECT and JIRA. Develop relationships with your IT partners (systems, infrastructure), business (all business areas of the group), suppliers external to search the improvement continues from the performance such as: IT Governance, Information Security, Network Infrastructure, Data Integrity, General Information Security Controls, Logical Security Parameterization, Physical Security and Infrastructure (Equipment, Facilities, Programs and Data). Preparation and control of budgets and OPEX. Negotiation and administration of supplier contracts. Experience with prioritization, resource scarcity and needs to reduce or optimize corporate costs. IT Governance through best market practices (AWS, ORACLE CLOUD, AZURE, COBIT, ITIL, PMBOK, SCRUM, PYTHON and DESIGN THINKING). Definition of goals, indicators and prioritization of service levels with business areas. Prospecting the relationship between business partners and customers. Experience, Management and implementation of infrastructure projects, Data Center, Information Security, LAN, WAN, WIFI, WAF, VPN, CITRIX, Support / Service Desk and Outsourcing. Initiatives and implementations in Technologies (Industry 4.0 and AI - Artificial Intelligence) applied to industrial processes.

- Migration of the System SAP R/3 version- 4.0 in 2001 to version R/3 SAP 4.6b WITH DATABASE, SQL, SQL SERVER, PROGRESS, ORACLE v.9 / 10/14.
 - Development of functionalities using programming languages and Agile Methodology such as: Ruby, Kotlin, Angular, VB, Nodes, ASP, React, C++, C, COBOL, DELPHI, PHP, C#, JAVA, JAVASCRIPT, VB, .NET, SCRUM, PYTHON, ITSM, ATRIUM CMD, ADDM , KANBAN, JIRA, POWER BI, COBOL .
 - 29 Experience with Bank of Data ORACLE DevOps
 - 22 Experience with Oracle CLOUD Services
 - Windows: AD, Active Directory, DNS, DHCP, RADIUS, FTPS, IIS6 and 7 or Higher, GPOS, Certificate Authority (CA), LDAP, SSO
 - Management of the Projects (Implantation and Migration CRM/ERP, SAP ECC in 1998 WITH 12 MODULES.
 - Management of the Projects Implantation of SAP S4 HANA in 2014 WITH 18 MODULES.
 - Management of the Projects and Implantation CRM / ERP TOTVS (DATASUL MAGNUS SYSTEMS) IN 1989 WITH 12 MODULES.
 - Implementation and Improvements the 26 years.
 - SAP ECC and SAP S/4 HANA Integration and Solutions (ABAP, FICO, BI, FI, MM, CO, IS, HR, PM, SD, PP, QM, IM, AM, WF, TR, PS, AA).
- Knowledge in SAP Solution Manager V7.2
 - Knowledge SAP Best Practices S/4HANA 2021
 - Knowledge in SAP with RISE S/4HANA
- **26** years of experience in Integration and Solutions: TOTVS DATASUL, SAP ECC, SAP S/4 HANA, SALESFORCE and Legacy Systems.
 -
 - **22** Projects go up the my Management and Participation Direct in all Phases of the Activate and ASAP Methodology.
 - Innovation projects such as; PCP, INDUSTRY 4.0, AI, FABRIL, CD , GKO, EXPORT AND IMPORT, E-COMMERCE B2B, B2C 100% DIGITAL, FRONT END\NET, BACKEND, with agile languages, PYTHON, SCRUM, ANGULAR, JAVA, JAVASCRIPT, .NET, HTML, P H P , C , C O B O L , NodeJS, MongoDB, POWER BI, KANBAN, JIRA, TRELLO and PROJECT, in the SAP platform, with ORACLE, SQL SERVER, Laravel and CodeIgnite databases for (PHP), Django (Python), Struts (Java), Net Frameworks (.Net), Front-end Frameworks, (bootstrap, foundation and materialize), Frameworks in JavaScript and Java (Angular, Nodes and Vue.js).
 - ERP/CRM system migration projects, moving from TOTVS to SAP with 12 Modules (administrative, pcp, production, shipping, billing, sales, accounts payable, accounts receivable, accounting, costs, inventory, finance, HR, etc.).

- Implementation of ERP's and CRM's (SAP ECC, SAP S/4 HANA, TOTVS (Protheus, Datasul), Salesforce, JD Edwards, Microsoft Dynamics), Windows Server, Microsoft (ActiveDirectory, DNS, DHCP, FileServer, PrintServer); bank of data (ORACLE, PROGRESS, MS SQL Server, SQL).

- Experience in solutions of DevOps (ORACLE, PROGRESS, ORACLE CLOUD, AWS, AZURE DevOps, IBM DevOps, SQL).

Experience with Planning Execution of Tests Functional and no Functional (WEB, MOBILE AND API).

- Solids knowledge in logic of schedule with domain of standards integration. database languages, XML, REST, SOAP, APIS and KPI.
-
- Excellent knowledge with Bank of Data ORACLE, PROGRESS, SQL and NoSQL
-
- Experience with methodologies agile to management of projects, such as: SCRUM, PYTHON, POWER BI, KANBAN, JIRA, GOOGLE ANALYTICS, GOOGLE ADS, XP, AGILE;
- Management from the network corporate of computers, in environment Windows NT Server 4.0 / Windows 2000 / 2003 / 2008 / 2013 / 2016 / 2019 / 2022 / 2025 (MIGRATING NEW VERSION) Server, with definition of standards and procedures for network environment.
-
- Experience in procedures and main routines and turnover of schemes data backups, using tools such as: Tivoli, NTBackup, ArcServe
-
- Technical support for users directed to the applications Windows 2000/ 2003/ 2008/ 2013 /2016/ 2018 / 2022 Server / Windows 11 Pro, Windows 10 Pro / Windows 8 Pro / Windows 7 Pro / Windows XP Professional / Windows NT 4.0 / Windows NT Workstation 4.0 / Office Family and others, as well as support for computing hardware infrastructure and physical installations of local networks.
- Create Security Baselines for Servers, Databases, Network Devices and Workstations.
- Mapping and managing cyber risks, developing the plan and coordinating the execution of vulnerability tests regularly in the IT environment.
- Mastery of architecture and deployment of network and security components (Firewall, LAN, WAM, WIFI, WAF, VPN, AV, WAF, Webfiltering, DLP, IDM, Encryption, Scan of Vulnerabilities, Routing, protocols of network, Subnets, Routers and Switches)
- Knowledge in Threat Modeling
- Knowledge in Virtualization, CI/CD Oracle Cloud, AWS, Devops, Containers, Kubernetes

- Knowledge in development Secure (NIST, CIS, ISO270001, OWASP, GSMA, 3GPP)
- Knowledge in Tools of Scan with Vulnerability as Nessus, SecPoint and Qualys
- Knowledge in security of environments in Cloud (AWS, ORACLE CLOUD, AZURE, IAAS, SAAS and PAAS)
- Install, manage and monitor Servers (Windows, WMware, HCI), their services and systems using tools specific to each environment, keeping the systems available;
- To maintain the update of the servers (Windows, WMware), through of the packages updating, keeping systems technologically up to date;
- Elaborate, to execute and manage the backup of the servers, through of the tools backup, ensuring the security of data and systems;
- Ensure logical network security through antivirus and firewall management (filter of content and IPS) ensuring the integrity and confidentiality access to information;
- Elaborate projects of expansion, maintenance and update from the network of data (physics) and logic) through from the settings of systems and management of suppliers;
- Support the Service Desk team with network and systems related issues (3rd level) through of service of called, ensuring the satisfaction of internal customer ;
- Contact companies providing services related to the network, communications and security to open calls through specific channels for each supplier, ensuring agility in resolving technical problems;
- Configure and monitor switches through of rules suitable and verification of logs guarantee connectivity, performance and security;
- Manage Office365 and Active Directory through specific software guaranteed the perfect operation of service of messaging and management access permissions;
- To execute routines administrative of the banks of data MS-SQL and Oracle ensuring its perfect functioning;
- Monitor communication links between national, international and access units the Internet, through of tools specific of the suppliers ensuring proper data communication.

- Knowledge in Switching / Routing / Security Perimeter / Wireless and Voip / ADC technologies for Cisco, Fortnet, Alcatel, HP, Palo Alto, F5
- Firewall and Router Administration, with application of its rules Filtering, NAT and Routes, using tools such as AKER 4.0; administration in Windows NT and Windows 2000/2003/2008/2013/2016/2018 Server, UNIX, Management Firewalls, security, WAN networks, routing, cabling, etc.
- Responsible for decrease of costs in the buy of equipment and products of information technology, participating in the technical specifications for its acquisitions and implementation of services, such as: Switches, Network Servers, Software, structured cabling items, etc.
- Manager of team as: Coordinators / Developers / Analyst of Support / Network Analyst / Technical Support Analyst, IT Technician and External Consultants, composed of 28 employees, focused on direct service to users and group of directors, as well as research into new technologies for the areas of Security, Infrastructure, Network, Data, Microcomputing, Internet and Development.
- Participation in periodic meetings with the technical team to develop guidelines of action and new projects the to be implemented and/or researched, to improving performance and the technology used.
- Preparation of documentation for maintaining the security of the corporate environment, involving the entire infrastructure area of the company, as well as those responsible for the administration of its corporate network.
- Creation of routines of backup, of users, groups and of your respective accesses.
- Professional with leadership skills, dynamism, quick and logical thinking, versatility and flexibility to deal with changes, interpersonal relationships, focused on innovative actions.
