- **Casas Bahia S/A** – Sales Consultant (Aug 2009 – Feb 2015)
- **Positivo Informática Ltda** – IT Technician (Mar 2008 – Jul 2009)

SAP ACHIEVEMENT

In a multinational company, a production-wide printing spool issue caused duplication of invoices and inventory labels due to integration errors between SAP Basis, SD, and MM modules.

Through expertise in complex manufacturing processes, the issue was resolved by correcting module integration and configuring Zebra printers properly.

This improvement prevented large-scale financial and logistical losses.
