PROFESSIONAL SUMMARY

Salesforce Consultant with extensive experience in implementing innovative and scalable solutions across Sales, Service, and Experience Cloud. Demonstrates expertise in gathering and analyzing client requirements, designing tailored solutions, and driving successful platform implementations using Agile and Waterfall methodologies. Adept at optimizing business processes through advanced automation, system integrations, and user-friendly Experience Cloud portals. Known for delivering high-impact results in diverse industries, including education, energy, and retail, while fostering strong client relationships and ensuring long-term project success.

PROFESSIONAL EXPERIENCE

Cognizant - Salesforce Consultant - (Nov 2021 - Present)

- Customized Experience Cloud portals for partners, improving collaboration and business efficiency.
 - Customized the Salesforce Org to align with customer requirements by creating objects, fields, reports, formulas, and forms.
 - Delivered automation using Flow Builder, Apex Triggers, and Validation Rules, reducing manual work.
 - Designed and implemented a Partner Portal to streamline lead sharing and reporting for a global retail client, resulting in a 30% increase in partner engagement.
 - Configured platform security settings (Profiles, Roles, Permission Sets) to ensure compliance.
 - Conduct user training for effective platform utilization.
 - Integrated Salesforce with external systems to enhance functionality and streamline data flow, ensuring seamless operations across platforms.
 - Implemented approval processes to enhance operational efficiency and compliance with corporate policies.
 - Collaborated with stakeholders to define KPIs and ensure alignment with business goals, delivering measurable results.
 - Provided ongoing support and enhancement delivery, ensuring Salesforce orgs adapt to evolving business needs.
 - Conducted health checks and audits on Salesforce orgs, identifying and resolving performance bottlenecks and security vulnerabilities.
- 

SkyPlanner - Salesforce Consultant (Jan 2021 - Dec 2021)

- Led the design and customization of Salesforce solutions for client-specific needs.
- Developed advanced process automation, reports, and dashboards to support critical business decisions. -
- Successfully integrated external systems with Salesforce, enhancing platform capabilities.
- Collaborated closely with clients to gather detailed business requirements and translated them into technical solutions aligned with Salesforce best practices.
- Redesigned and optimized Salesforce processes to eliminate redundancies, improve user adoption, and increase operational efficiency.
- Implemented Experience Cloud solutions to enable customer self-service portals and streamlined communication channels.
- Configured role hierarchies and sharing rules to ensure secure and efficient data access across user profiles.
- Migrated legacy data into Salesforce, ensuring data integrity and adherence to client specifications.
- Created scalable solutions to support long-term client growth, minimizing the need for future rework.
- Developed training materials and conducted user workshops to ensure smooth onboarding and adoption of new Salesforce features.
- Built custom approval processes tailored to meet unique client workflow requirements, improving compliance and efficiency.
- Provided hands-on support during go-live phases, resolving issues quickly to ensure seamless project transitions.
- Established a framework for ongoing platform enhancements, empowering clients to achieve continuous improvement in their Salesforce environment.

Incentivale - Salesforce Developer Analyst Jr (Feb 2020 - Sep 2020)

- Supported Salesforce platform customization, including object and field creation.
- Implemented workflows, validation rules, and approval processes to optimize business workflows.
- Assisted with requirement gathering and ensured alignment with business goals.
- Optimized data management processes by implementing best practices for data migration, deduplication, and governance.
- Developed advanced dashboards and reports to provide actionable insights and facilitate data-driven decision-making for stakeholders.
- Spearheaded the implementation of multi-language support in Experience Cloud portals to cater to global audiences and improve user experience.
- Conducted health checks and audits on Salesforce orgs, identifying and resolving performance bottlenecks and security vulnerabilities.
